World Congress 2018  
in Germany*

# Walking the Subud Way

---

*Proposal presented by SUBUD Germany  
to the 14th Subud World Congress 2014  
in Puebla / Mexico*

**Our Banner for the World Congress in Puebla.**  
*Painted by Rusydah Ziesel, picturing Germany's national symbols of the oak and the eagle.*

**“If you want to express  
Susila Budhi Dharma  
or Subud with one word,  
it is unity or being one.”**

~Bapak Muhammad Subuh Sumohadiwidjojo

## Subud Germany proposes to host the Subud World Congress 2018

**Subud Germany** has more than 500 members in 17 Subud groups and a 50-years Subud history. The members of Subud Germany are prepared and capable to support the organization and happening of a World Congress with enthusiasm. What might seem to have come „out of the blue“, has been in reality no real surprise to us. It is the result of a discussing and testing process for many years flowing in a common feeling within Subud Germany, as we outline on page 5.

The organizing team chose the UN City of Bonn which provides facilities for big latihans, a fully equipped conference center with state of the art technology and a wide range of options for an attractive side-program. Bonn is a city of international population and diversity in culture. The local Subud group, supported by the members of Subud Germany, is willing to mobilize the necessary forces which are required for the organization of such an extraordinary event. The city authorities show serious interest to host the Congress; there are good prospects for an agreement.

## Storyline

### The process leading to our decision

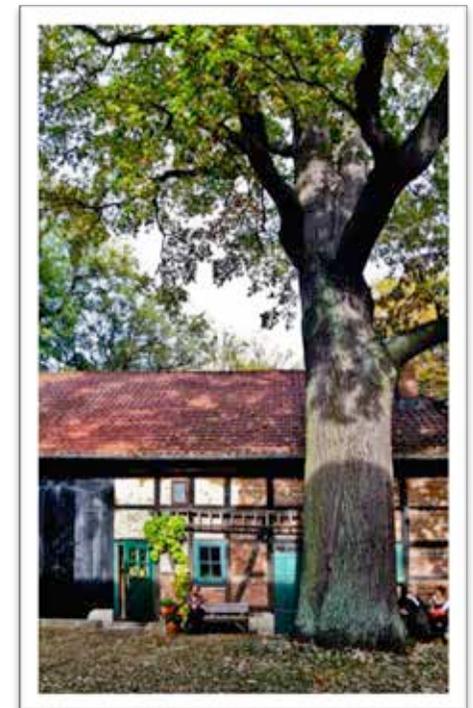

**Inspiration at our National Congress:** It started at our national Congress in May 2014 with a new and promising process arising through an artwork prepared for the World Congress in Puebla. In this atmosphere, Anwar (KC) shared his spontaneous inner indication about hosting the World Congress 2018 in Germany with the Delegate team and later with the National Team, which reconfirmed and expanded our understanding of the dynamic process Subud Germany has been experiencing for the past five years. In connection with the wonderful experience of the Zone4 gathering 2013 in Wolfsburg, there has been an intense process of the next generations and new Subud members getting actively interested and involved in national and international matters over the last years, all this and a joint strong inner feeling induced Subud Germany to put forward the proposal for both the WSA Executive Team as well as hosting the World Congress.

**Enjoying cooperation:** We realized, that hosting the WSA Executive and/or World Congress is a quite consistent step in regard to the development over the past years in Subud Germany. Bapak's recommendations in "On the Subud Way" on national organizations and the "Proposal for a Discussion Process on the Subud Organization" by the Initial Core Group established at the Christchurch World Congress were the basic orientation and inspiration in this process.

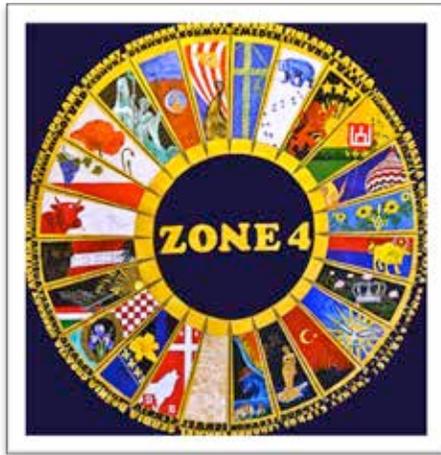

**Living participation:** We newly revived in Germany the "Subud Council" idea recommended to Subud by Bapak. It intends a lively and intense exchange between the chair-team, helpers, advisers, assessors, wing-chairs and delegates from the local groups. The participation became more intense and culminated at our National Congress in 2014 in the decision rising from a feeling of "time to take responsibility". We found strong support from many places to go ahead and explore the possibilities. So in fact what might seem to have come "out of the blue", has been in reality no real surprise to us. The timing of presenting this proposal feels right and in balance with Subud Germany's process for several years.

*The delegates from Germany:  
Anwar, Hilma, Ismanah and Lucia*

*The office of Subud Germany in  
Wolfsburg*

## Embedded in Zone4

**Being part of Zone4** we identified a kind of thread that led us since the last World Congress in Christchurch to zonal meetings in Vilnius (2010), Athens (2011), Bad Vöslau (2012) to Wolfsburg 2013. Our perception is that our proposal as Germany should be looked at with the awareness of being part of the Subud Zone4. Testing about a World Congress in Germany, the invigorating effect we felt was most intense for Zone4, for the development of Subud in these countries. This feeling already comes from way back and was strengthened through the last Zone4 gathering, which was held in Wolfsburg last year.

*A SICA event at the Zone4 gathering in Wolfsburg: an evening in the Planetarium*

*Joyous girls at a Subud congress*

\*)

**Our Zone is one of extreme diversity.** It covers central and eastern Europe, Scandinavia, northern Asia and part of the middle East – with Scandinavia in the North and Greece, Israel, Lebanon and Turkey in the South to Russia and Ukraine in the East, 25 countries all in all.

**This diversity of cultures, languages and religions** is part of our heritage and challenge in our Zone4. Most of the Zone4-countries have been connected in one form or another with Germany, we all share political and many times also complicated history. Out of these difficult times we now share and enjoy good relationships on many different political and economical levels. Some countries of Zone4 currently find themselves in very difficult and even quite dangerous political circumstances. A strong inner connection and understanding to bridge these differences is needed so very much. Through Subud and the Latihan we receive the strength to overcome all these boundaries and show to the “outer world” that it is possible to live and work together harmoniously. What better opportunity to support and show a process like this by taking the responsibility in hosting a vibrant and lively World Congress in this region.

\*) Zone4 banner, created by Arifah Gebhardt for the World Congress in Puebla

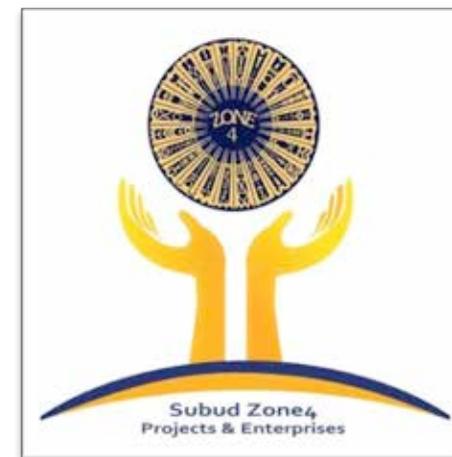

## Roadmap: Walking the four years in partnership

**Culminating event of a bottom-up process:** We understand preparing the World Congress 2018 as the culminating event of a bottom-up process in the sense of subsidiarity and Subud development. We feel that the reviving and reconnecting in-between the congresses are of vital interest to close the felt gap between the national and international organizational bodies and the members. We don't have the solution at our fingertips; we do trust the process out of the inner intention to follow Bapak's advice on organization and the working closely between committees and international/national helpers.

**Interesting partners:** Further on we want to use the chance to cooperate with interesting partners in our host city to make Subud visible in the community throughout the four years before the World Congress. In the discussions with the authorities of Bonn we identified an inspiring variety of opportunities to work together on a cultural level in different kinds of concerts and rehearsals. World-famous composer Beethoven could be an inspiration to different pieces on stage for SICA for example. In the field of development and humanitarian work we can interact through conferences and public fora together with SDIA. We are looking forward to three years of synergy with the Subud community, the wings and different organizations and stakeholders to keep the spirit of Subud alive between the Congresses.

**Cooperation and communication:** We are convinced, the question of how to keep a high level of cooperation and communication between the council, the national bodies, and the Subud members, ought to be on top of the agenda. We see the challenge not to lose the flow and energy and connection from the congress in Puebla into the daily life of Subud. We realize, this only works through projects and enterprises, the working together and also through continuous communication helping us to be aware of each other's needs.

**Subud wings:** At the same time we would like to see the Subud wings drawn into the center of attention of our work. It also would be wonderful to incorporate at least some of the Zone4 and neighboring Zone3 countries in the preparation process of a World Congress.

*At the Zone4 gatherings in Wolfsburg and in Moscow, Russia*

*The UN campus in Bonn, adjacent to the World Conference Center Bonn (WCCB)*

## The World Congress 2018 in Bonn, Germany

Germany is situated in the heart of Europe. The country has learnt bitter lessons from history and developed an internationally respected culture of reconciliation, being now one of the most important forces for peace. One big symbol is the river Rhine: over centuries the frontline between France and Germany the river emerged since 1945 as lifeline of friendship between the two countries and as such a core factor for the European Union.

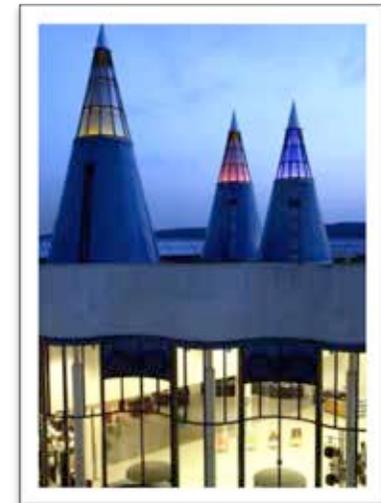

**Searching for a venue:** We checked the possibilities in Germany for an ideal Congress place. Fortunately we didn't have to look far: the ideal city and venue were found in a place with Subud groups nearby. The city

we think would suit a Subud World Congress in a perfect way is Bonn, with a population of about 310.000, situated on both banks of the river Rhine. And like our Zone4, the city resembles the diversity of cultures, languages and religions. The intercultural atmosphere, the international relationship through the UN campus and many other international organizations make Bonn perfect for hosting the Subud World Congress 2018.

**Bonn is quite easily accessible** from all over the world, one international airport being only 20 minutes away (car) and the Frankfurt international airport just 60 minutes (train).

*Ludwig van Beethoven – his over all presence in his natal city of Bonn.*

*Bundeskunsthalle, one of the many museums in Bonn – only a 10 minutes walk from the Conference Center.*

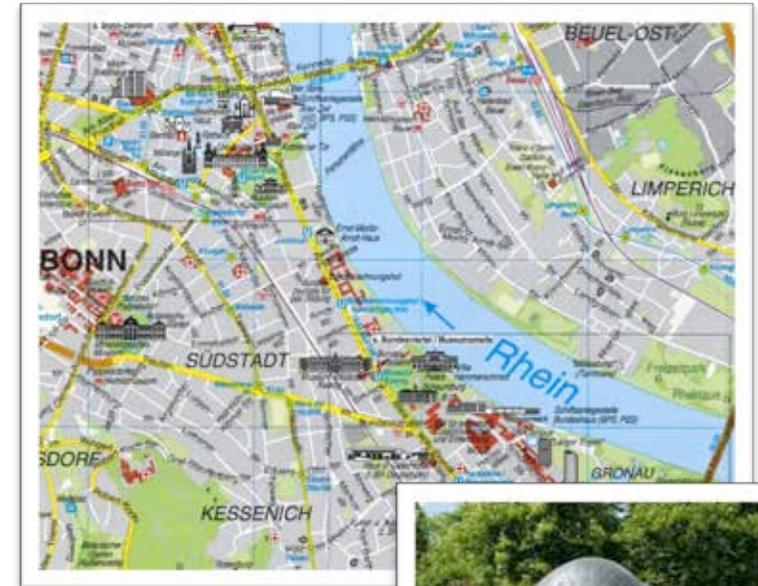

*In a nutshell*

## Reasons for a World Congress in Bonn

- The international character of being a UN city
- The venue hosts everything: Latihan rooms, breakout rooms, catering, meeting point.
- At the same time the structure of Latihan premises and about 40 breakout rooms of the venue are ideal
- The City of Bonn has shown strong interest in having Subud for the World Congress in town. All attending members will receive a free subway/bus ticket for the duration of Congress
- Bonn supports the organization of „green“ Congresses
- Worldwide easy and fast accessibility of Bonn with three international airports within short distances.
- The city and the surroundings are wonderful and inspiring: Theaters, museums and other interesting venues around. Romantic Rhine-valley to explore by ship, bike or train on a day excursion or further holidays.
- Beethoven, one of the most famous musicians of the world was born in Bonn. Bonn has a strong relationship to Beethoven, organizing a yearly famous Beethoven festival.
  - A strong local Subud group.

*The Subud premises in Königswinter, located just 15 minutes from Bonn with the ‚World Conference Center Bonn‘ venue.*

*Sculpture ‚The blind men and the elephant‘ from Richard Engels (Subud Wolfsburg) in the Rheinaue, Bonn – close to the World Conference Center Bonn.*

*Bonn is a great place to start a romantic journey on the river Rhine*

## Accessibility and Travel to Bonn

Bonn is centrally located in Western Europe, in the direct vicinity of the Benelux countries and France. The three airports of Cologne/Bonn, Düsseldorf and Frankfurt provide direct access to all European capitals, numerous other European cities and all major destinations outside of Europe. Bonn's two long-distance train stations connect the city to the national and European rail network. Ample-built roadways link Bonn with the western German mayor cities of Cologne (30km), Düsseldorf (60km) and Frankfurt (130km) as well as with all of the area's airports and the entire national and European long-distance highway network.

## Direct Flight Times (approximately) to

### Cologne/Bonn Airport from

Amsterdam: 1 h 10 m  
Athens: 3 h 5 m  
Barcelona: 2 h 15 m  
Istanbul: 2 h 55 m

Sydney: 20 h 50 m  
Toronto: 8 h 45 m  
Washington DC: 9 h

*Schloss Drachenburg, a castle situated in the Nature Reserve 'Siebengebirge', overlooking the city of Bonn at the river Rhine.*

## The World Conference Center Bonn (WCCB) as conference location for Subud

**The World Conference Center Bonn** is a very unique facility and is located in the middle of Bonn's former government quarter, in the immediate vicinity of the United Nations Campus, Deutsche Post DHL, the international media broadcaster Deutsche Welle, the BMZ (Federal Ministry for Global Cooperation and Development), the Engagement Globale (Central contact agency in Germany for development policy initiatives) and many international organizations – right next to the river Rhine and in vicinity to a extensive park.

**Many Hotels, Museums, Theaters** and other interesting venues are just a few minutes walk away. The World Conference Center Bonn is served by excellent public transportation. Positioned directly on the Rhine promenades, the World Conference Center Bonn is in extremely close proximity to the Museum Mile and the Bonn City Center. Both of these areas offer great value leisure. With more than 7,000 hotel beds, Bonn is excellently equipped for congresses and events of any kind.

**With about 40 breakout rooms for workshops or testing and several big halls for the morning and evening Latihan** the WCCB is the perfect venue. Everything needed can be found in one building. Those who want to see some nature in between the workshops or meetings may just step outside to walk along the Rhine promenade or into the close Rheinaue-Park. A little note: in this park is a sculpture from Richard Engels from Wolfsburg.

## Budget Perspective

We have checked the main expenditures. We note them at their present state although we are confident to get them down when negotiating in detail.

**Venue:** On the basic assumption, that the World Congress will last 14 days, the World Congress Center Bonn has calculated as a first offer

- **495.000 US-\$** for the entire venue plus VAT\*
- **102.000 US-\$** for service personal including fire prevention, security, cleaning, medical plus VAT\*\* at the moment 19 %

### Other costs:

- **95.000 US-\$** expected for WCOT management office rent included
- **Marketing** concept (and cost) have to be defined and tuned with WSA during the preparation process
- **Organization:** Bank, booking, translation, transport will be defined according to the fast developing technical possibilities. The Bonn tourist office has offered to use their booking system free of charge
- **Program:** Fringe events will be defined and tuned with WSA according to the needs and personal resources occurring during the preparation process

**Accommodation:** There is a great variety in price, style, and quality, including high class hotels as well as B&B, youth hostels, rental apartments, and camp ground in a range of 2 km around the WCCB. In the month of August hotel rates are normally low. The room rates start at 35 US-\$ per person and night in hotels and 28 US-\$ in youth hostels. Family rates (2 adults, 2 kids from 6 to 16 years) at camp grounds 28 US-\$ in tent and 32 US-\$ with caravan per day.

**Meals:** The meal costs for the year 2018 cannot be fixed today. A clue however is, that the caterer of the WCCB calculates three price ranges to be chosen. The lowest is to meet the demand of the UN on the occasion of their conventions taking place in the WCCB.

**City transportation:** The Bonn tourist office has offered free tickets for city transportation.

*Crossing the river Rhine in Bonn, during a meeting to work on the proposal.*

## Conclusion

**The responsibility of having the WSA Executive Team and the World Congress 2018** in our country is well in line with the process and development Subud Germany has gone through. We have the wholehearted support of our membership and a strong team to venue on this journey.

**Our World Congress organizing team** has the professional background for a task like this (organizing congresses and fairs, event management) and at the same time the experience of organizing the World Congress in Innsbruck/Austria, which will be very helpful for Subud specific needs.

**Our research for a fitting city and venue showed us several venues in Bonn, Darmstadt and Freiburg.** In this proposal, we present the city of our first choice: Bonn. We are still in a negotiating process. The venue is still under construction (to be finalized in summer 2015). In case Germany should be chosen as the country to host the 2018 World Congress, we will go into deeper negotiations with the City of Bonn and the World Conference Centre Bonn (WCCB). Should by any case their price not meet our vision of a payable budget for the members, we would take our second choice into account: the city of Freiburg. We already negotiated with the city of Freiburg and can assure that this city and venue would also meet the criteria for a World Congress.

**We are well prepared but at the same time open and flexible** for the outcome of the testing in Puebla. The World Congress in Puebla will designate the country (Subud organization), which will best be able to serve the international Subud community as “World Subud working space” for the next four years. It is about the bigger picture; the process to continue in a way it serves to our all benefit. Even if the WSA Executive and World Congress 2018 go to another country than Germany – we already feel really blessed through working on this proposal. We simply trust the Latihan process to decide what is best for all of Subud in the upcoming four years.

**FREUDE.  
JOY.  
JOIE.  
BONN.**

*JOY, the motto of the city of Bonn. It was taken from „The ode to joy“ in the ninth symphony from Ludwig van Beethoven.*

*Walking the Rhine in Bonn, adjacent to the World Conference Center Bonn.*

## Appendix 1

**Confirmation:** Bonn and the “World Conference Center Bonn” meet all of the following criteria required for a Subud World Congress.

### LOCATION/AREA

This should be easily accessible by air, rail and road.

It should be an area where Subud members – families, young people, and older people - feel comfortable.

There should be a good mix of hotels and accommodation ranging in price and style and including backpackers lodges, youth hostels, YMCA's; B&B's, 5 star hotels; rental apartments and camp sites. These should be in close proximity to the main site if at all possible

The area should be close to areas of natural beauty and touristic sites for day excursions.

### THE MAIN SITE

should have meeting rooms and facilities as follows:

Two Large Spaces for Latihan

Space for General Plenary sessions of 1,800 – 2,500 members i.e. delegates, council members, observers. The largest hall would be needed for 2 or 3 plenary sessions, plus Ibu Rahayu's talks.

Smaller Spaces for WSA Delegate Meetings

At least 40 Meeting spaces (more if possible) of differing sizes: for workshops / interest groups – seating capacity up to 200; for latihan and testing – varying capacity up to maximum 5 people standing/ moving around.

Dining area for pre-paid meals

Café's for beverages and snacks

Spaces for Large Cultural Events - theatres, cinemas, concert halls

Reception and Office Spaces for Registrations and admin

Spaces for Exhibitions and Gift/Craft shop, Book shop

Provisions and Spaces (indoor and outdoor) for Children and families

Provisions and Spaces (indoor and outdoor) for Young People

Open Spaces / Activity Spaces / Socializing Areas

First Aid and Rest Facilities

There should be adequate car parking spaces / the city will provide free tickets for all Congress attending members

Simultaneous translation facilities and equipment required in main meeting rooms for plenary sessions, WSA Delegate meetings, Ibu Rahayu's talks and workshop rooms too, if possible

Audio Visual facilities and equipment – all meeting rooms need wi-fi internet access, microphones (if necessary), projectors, screens, flip charts, wipe boards etc

### OTHER FACILITIES & REQUIREMENTS

Transport: Airport transfers and transport to hotel/accommodation if possible

Visas: Requirements for visas need to be researched and liaison with immigration dept. set up if possible

Business Plan: a draft business plan showing income from registrations and costs of venues and facilities needs to be drawn up.

Public Relations: an outline plan of how the WCOT will interact with local authorities and local community through the media (newspapers, television, radio etc.) needs to be drawn up.
