

WSA Archives

Report of Activities of WSA ARCHIVES 2010-2014

Main Focus, Achievements, News initiatives and development

1. Digitalization of the talks of Bapak:
2. Building an Archives Team
3. Developing a strategic budget for short, middle and long term
4. Beginning a Database
5. Preparing a Manual for Handover and continuity

Strengths and weakness

- ✚ Lack of continuity
- ✚ Difficulties to work with 5 locations all over world
- ✚ We need more people working full time
- ✚ Lack of understanding the importance for WSA Archives for the good development of WSA
- ✚ Necessity to have a stable way to financing WSA Archives
- ✚ A very deep involvement of the people working together
- ✚ Skilled and experimented team
- ✚ Fundraising seems developing

Collaboration with the different Subud Entities

1. Translations with Elisa Sanchez as Officer of translation
2. SPI in order to improve the efficiency of the communication
3. With USA, Cilandak, England committees as they have certain responsibilities as they have WSA Archives on their soils!
4. With WSA fundraiser to prepare all necessary documents and now and then with members willing doing a donation
5. Generally speaking Archives are often asked to find documents for many reasons and particularly in 2014 to prepare the World Congress

Priorities for the future

For the next period June 2014- 2018:

1. To catalog documents and enter all available records into our electronic database
2. To complete a hand over Manual for future Subud archivists
3. To make archive presence more prominent on the WSA website - to inform the membership about our work
4. To own more WSA archives centres! At this time, only one Archives centre is owned by our WSA: Wisma Subud.
5. To continue to develop our professionalism and train new archivists at the national and international level.
