2013 World Subud Council Meeting ZONE REPRESENTATIVE REPORT

Name and Zone	Hadrian Fraval Zone 1 & 2 Co-ordinator
ZONAL DEVELOPMENT How has your zone been functioning as a Zone?	<p>We had a very good Zone meeting at Rungan Sari in December 2012 which was well represented by countries in the zone. (Japan, New Zealand, Indonesia, Vietnam, Australia, Malaysia, Singapore, Thailand and India) Sri Lanka, Philippines, Hong Kong/China, Bangladesh, Pakistan and Iran were not represented.</p> <p>This 2nd zone meeting in this term demonstrated that there is a developing awareness of Subud in the zone. This was highlighted by the collective financial support for the building fund of the Thailand Subud House. The US\$30,000 was raised without any support needed from MSF. Completion of construction is expected by July 2013</p> 
ACTIVITIES What activities have been especially important in your Zone?	<p>National Congresses this year have been held in India, Japan, New Zealand, Australia, Malaysia and Indonesia with good participation my members. Vietnam also celebrated their 50th year anniversary with a well-attended gathering.</p>
COUNTRIES Are there any developments that have occurred in your countries to report?	<p>Thailand has a new Subud House. Indonesia has developed a membership database software application which was presented at the zone meeting. There is an expanding membership. Japan has been evaluating the long term future of their current Subud House in Tokyo. They own the building but not the</p>

	<p>land. Various options are being considered. India has a plot of land but needs a further \$50,000 to complete their Subud House in Mumbai. Singapore needs a Subud House and Malaysia needs to move their Subud House to be closer to the members' location. Vietnam urgently needs a Subud House. In Kalimantan; the KGC mining exploration is continuing at an accelerating pace with a budget of \$16m this year funded by their partners Freeport; The Kalimantan River Boats Eco-tourism enterprise is building a 3rd boat and the zone meeting participants were given a taste, during a short cruise, of the beauty of an equatorial jungle and orangutangs ; A Palm Oil project is in the planning stages; The BCU School continues to grow and now has over 100 students. SDI, YUM and YTS continue to develop social projects in Central Kalimantan.</p> <p>New Zealand held a successful family camp in December 2012. There are many other activities in other countries in the Zone which show that members are committed to Subud and the Latihan.</p>
<p>ZONE STRENGTHS/WEAKNESSES What are the strengths and weaknesses in your zone?</p>	<p>Strengths- Stable or growing membership in Indonesia and Australia Good number of IH visits to countries</p> <p>-Weakness Most centers have shrinking member numbers Lack of Subud houses. Where are the tangible results of the Latihan</p>
<p>ANY THING ELSE</p>	<p>The Zone meeting and National Congresses confirm that, when we get together as a unified human community, our strength and outcomes are greatly enhanced. After the zone meeting there was a great increase in enthusiasm for doing the latihan and Subud activities. .</p>
<p>WSC MEETING What would you like to see addressed at the 2013 WSC meeting?</p>	<p>Grass-roots, not top down. Greater Helper caring through example. How can we support the members to realize more results from their Subud life?- Experience the reality. I have received requests from members in Bangladesh, India, Pakistan, Iran, Vietnam and (I'm sure there are others) for financial assistance in getting to World Congress in Puebla. We need to start planning now as to how we can assist!</p>
