International Reports..

WSA Budget..

Simon Samuelsson WSA Treasurer
Dear National Committees:

- “Thanks to an anonymous donation and other individual donations mainly from the transfer of proceeds from sale of PT S Widjojo the WSA financial situation has much improved in 2008. In early 2008 unrestricted funds stood at \$172,799 and @end of September \$430,142, an increase of about \$257,000.

A World Congress reserve of \$200,000 has been established from these unrestricted funds, which can be used for bridging congress related expenses. Once congress accounts are finalized in 2010, the remainder of the reserve fund can be released and used for other purposes.

- Other programs including WSA Care Support - former Almoners - SDIA, Youth, SICA, External Relations, Zone Support and Communications/Website) are within budget but unevenly distributed. Care Support, SICA, Communications/Website will end the year above budget while others will most likely be below.
- Supporting Expenses for the whole year will come in above budget of about \$10,000 but will be below \$20,000. However, part of these are actually covering the first two months of 2009.

- For the whole year we forecast a surplus of \$40-50,000 before exchange rate related items. As 2008 has seen big currency differences we may have to book exchange rate losses in the final annual accounts.”
- Contact Samuel Simonsson @ simonsson@gmx.tm or Leonard van Willenswaard leonardvw@usahamulia.com for any further explanations.

Cuba News..

- “Dear Luke: How are you my brother? Samuel reporting from Subud Cuba. CC'd! is asking **How is Cuba after Ike?** Well my dear brother, not after Ike, but after Gustav & Ike! Two category 4 hurricanes (Ike only 10 days after Gustav). In short, the general lost is estimated at about 9 Billion dollars; 400 000 houses damaged; 64,000 completely destroyed; 200,000 people homeless. In our groups 8 members affected. in Camagüey who already have been assisted by SDIA. I will visit Camagüey early December and will report how everything is going on there with our groups. and the affected members. Love Samuel.”
- Samuel from Cuba has sent the 2nd edition of Subud Voice in Spanish and continues this project, contact him for more details.

Bapak's comments on Enterprise (various Talks courtesy SUSA SES'08 team)

"SO if you are running an enterprise that doesn't make profit, keep on with it. Find the reason, find where the fault lies. If you can find the fault in your enterprise, you can then go ahead and work to put it right. (76) If you can start some enterprises you will gradually be able to feel "Oh, this is the closeness of God, this is the Love of God for man. Although I am active in these ways, God is always present, always

overhead, always with me." (93) Bapak wants to explain another thing: when you do enterprises, Bapak doesn't intend or doesn't have the idea that each of you separately do your own enterprises. Because everything that we do will become easy, will become light, will become possible if we cooperate. Organization and cooperation is strength and power. (119) What is the meaning of working together? The meaning of working together is that you give everybody a value - everyone who works has a value. You do not look down or deprecate someone who maybe isn't clever, If you want to be successful you must value people like that, you must teach them. Even people who know nothing, who are able to do nothing, you must take them and teach them and show them how to work and to do something that is useful. Then we will truly be a brotherhood and we will be truly united. We will be truly powerful and able to achieve something. (120)...What is really needed is a true feeling of harmony, a true oneness whereby the top and the bottom look after each other and care for each other." Group Update Corner..

Updates from our Zone 7 groups;
 Montreal, November 30 2008
 From CC'd! 'correspondent'
 Grace Hodgson

"Taking a look around the living room of our Subud house today, enjoying one of our many fine lunches after latihan, we couldn't help noticing how truly cosmopolitan we have become in our little group of people. At last count we were 24 members whose mother tongue is English, 22 whose first language is French, (including two recent arrivals from Brazzaville), and now, after welcoming a new family from Columbia, we are 15 Spanish-speaking members! Also a few Polish, Hungarian, German and Russian... Sure, it takes a little while to translate the important issues, but mostly it brings such a wonderfully rich diversity of culture and character to our gatherings. We are already looking forward to our New Year's party. The Latinos are going to show us how they dance and sing, and our local gourmet cooks will be bringing their best

dishes to share, and children and grand children will come to feast and have fun with their Subud family. So, it may be cold outside, but there's a lot of warmth in here - do come and be with us if you're in the neighbourhood.

Best wishes for the holidays to all our Subud brothers and sisters everywhere - love from Subud Quebec" **Send your OWN group update (250 words max.!) + a photo!**
