Dear Zone 7 Council members:

I would like to share with you what I did in my last visit to Subud Suriname.

As I shared with you, I received through testing that going to visit Subud Suriname was very urgent and important for me. So I proceed as received along with the IH's.

I traveled from the 12th to the 17th of June to share with Subud Suriname members, to witness the election of the new National Committee and to visit the groups.

About Suriname:

Suriname is a country which is located in South America and has a population around 600,000 people.

Some facts about Subud Suriname

Actually they are around 80 members in the books and 50 active members.

They have two groups: Paramaribo and Acaribo and each group has it's own subud house.

They used to be three groups but one of them "Lelydorp" desapeared because they started to mix they practice with other religious content and practices.

In the case of this report, I think that some pictures “talk” more than thousands of words... so you will see some pictures about my visit to SS.
