

We are all going to Freiburg!

With our joint effort we will bring members of all generations to the 15th Subud World Congress - celebrating our worldwide Unity

Help us to fill the WSA Assistance Fund!

We are hoping that anybody who makes an effort to attend World Congress in Freiburg can be supported if they don't have sufficient financial means.

Did you know **Subud Spain** is supporting all members willing to attend World Congress? **Subud Chile** also started an initiative for a joint effort and support. In **Subud Indonesia** a common savings program has been started. **Subud Britain** and **Subud Germany** are each developing a helping hand fund.

The 2017 WSC meeting in Freiburg

Countries and zones are asked to sponsor their own delegates to attend the congress. This is not always possible – especially in areas of economic challenges for both the zones and member countries. This is where the WSA chips in to support the delegates to be able to participate in the World Congress, shaping the future of Subud. It is our common understanding that Subud should be represented by all countries where the Latihan is present and not only by those who can afford it easily.

Besides delegates, there are also many individual members - from the Subud pioneers to the young generation - who may need assistance. For this purpose, the World Subud Association has created an **Assistance Fund**. It will be allocated to three different categories of needs: delegates of the national committees, general membership and youth (International Youth Travel Fund).

Our goal: to raise 100,000 USD

We are positive that with a joint effort from all of us around the world we will be able to fundraise 100,000.- USD. You can donate directly or sponsor other members when you register and pay for your inscription.

You can also start an initiative locally in your group or within your country.

Talk about the World Congress, ask your sisters and brothers who would like to go but do not have the means to do so. Find out what you and your group would like to bring to the World Congress and how you will make it possible working towards this common goal. Let's do this all together!

Who contributes to the fund? Any and all of you who want to bring others to congress to share in the joy, friendships, activities and gifts that only large gatherings can offer. Come to Congress and bring others with you! And if you cannot attend congress yourself for whatever reason, you are still invited to support others to attend. Some funds have already come in for Youth Travel and for the Assistance Fund, but much more is needed to be able to help as many as possible

The WSA Assistance Fund will be administered by Hannah de Roo from the Netherlands. For details on the application procedure go to our website: www.subudworldcongress.org or write to Hannah at assistancefund2018@subud.org.

See you all in Freiburg!

Your WSA Team
